

A Resource Booklet for SACE Stage 1 Earth and Environmental Science

The following pages have been prepared by practicing teachers of SACE Earth and Environmental Science. The six Chapters are aligned with the six topics described in the SACE Stage 1 subject outline. They aim to provide an additional source of contexts and ideas to help teachers plan to teach this subject.

For further information, including the general and assessment requirements of the course see: <https://www.sace.sa.edu.au/web/earth-and-environmental-science/stage-1/planning-to-teach/subject-outline>

A Note for Teachers

The resources in this booklet are not intended for 'publication'. They are 'drafts' that have been developed by teachers for teachers. They can be freely used for educational purposes, including course design, topic and lesson planning. Each Chapter is a living document, intended for continuous improvement in the future. Teachers of Earth and Environmental Science are invited to provide feedback, particularly suggestions of new contexts, field-work and practical investigations that have been found to work well with students. Your suggestions for improvement would be greatly appreciated and should be directed to our project coordinator: lenaltman9@gmail.com

Preparation of this booklet has been coordinated and funded by the Geoscience Pathways Project, under the sponsorship of the Geological Society of Australia (GSA) and the Teacher Earth Science Education Program (TESEP). In-kind support has been provided by the SA Department of Energy and Mining (DEM) and the Geological Survey of South Australia (GSSA).

FAIR USE: The teachers named alongside each chapter of this document have researched available resources, selected and collated these notes and images from a wide range of sources. These resources have been adapted in fair use, for educational and collaborative purposes within our not-for-profit organization.

CONTENTS

- Chapter 1 **Turbulent Earth**
Luke McKay and Carolyn Goldney
- Chapter 2 **Composition of the Geosphere**
Rachael Griffiths and Cynthia Pyle
- Chapter 3 **Processes in the Geosphere**
Stefania Pulford and Mike Jones
- Chapter 4 **The Earth's Atmosphere**
Rebecca Barry and Lyn Bird
- Chapter 5 **Importance of the Hydrosphere**
Margaret Lock and Anna Lane
- Chapter 6 **The Biosphere**
Steph Walker and Rachael Griffiths

Editors: Bronte Nicholls, Len Altman and Peter Reeves
